

# Fungus, Parasites and Dental Conundrum Conference: Curing the Incurables by Measuring the Immeasurable

By Simon Yu, MD

What is a conundrum? By a definition, it means a riddle whose answer is or involves a pun (Merriam-Webster's Dictionary), or a confusing and difficult problem (Oxford Dictionary). The definition is vague and not clear to me, but somehow, I find the word, "conundrum" fascinating, as well as ambiguous and mysterious. I decided to name my Tenth International Medicine Conference in St. Louis, "*Curing the Incurables: Fungus, Parasites and Dental Conundrum.*" It is designed for health professionals. Kindly share this information with interested health practitioners to help spread awareness.

When listening to chronically ill patients on their first visit - who have already seen a long list of specialists and other alternative health practitioners - the long, agonizing misadventure of medical histories can be quite confusing, ambiguous and mysterious: a conundrum of life.

As patients share elaborate detailed histories with the latest diagnoses and lab test results, including genetic DNA tests and information on MTHFR methylation pathways, my mind wanders off to the world of the conundrum: a quantum world of what-ifs and a myriad of unknown possibilities...

By the time patients are evaluated by Mayo Clinic or Cleveland Clinic and still have an unknown or mysterious illness (they may give it a fancy idiopathic Latin medical diagnosis), most likely, they have some combination of unrecognized dental problems, parasites and fungal infections-mycotoxins effects.

How do I know? If we understand and measure subtle energy fields based on acupuncture meridians, we can cure the incurable by measuring the immeasurable (unconventional by Western medical standards). The ancient acupuncture meridian matrix system has been known for approximately 4000 years. During recent decades, pathbreaking physicians and researchers have developed tools and technology to measure these energy fields within the body, helping to better inform and guide diagnostic and treatment decisions. Quantum biology/medicine can help explain and resolve problems that conventional lab tests and pharmaceuticals are not able to diagnose and treat with successful outcomes.

I wrote on these subjects with many case studies in my book, [\*Accidental Cure: Extraordinary Medicine for Extraordinary Patients\*](#). It explains how your medical problems may not be what you think, what you have been told, or what has been diagnosed.

We will delve deeper into these topics with prominent speakers from around the world at the Tenth International Medical Conference: *Curing the Incurables: Fungal, Parasites and Dental Conundrum*, on **September 29, 30 and October 1, 2017 at the Frontenac Hilton, St. Louis.**

## Presenters include:

Daniel Beilin, Ph.D., OMI, LAc  
Robert Cass, ND  
Douglas Cook, DDS  
W. Lee Cowden, MD, MD(H)  
Michael Gerber, MD, HMD  
Antonio Jimenez, MD, ND, CNC  
Paul Johnson, M. Divinity  
Doug A. Kaufmann

Dietrich Klinghart, MD, Ph.D.  
Mark McClure, DDS  
Carolyn McMakin, DC  
Nicholas Meyer, DDS  
Stewart Moreland, DMD  
Michael Rehme, DDS, NMD  
John Parks Trowbridge, MD  
Simon Yu, MD

This conference brings together leading-edge physicians, dentists and other skilled health professionals to present the latest advances in understanding, diagnosing and treating the common, everyday, yet often-overlooked underlying causes of chronic illness. They are recognized for their expertise in a wide range of areas, including biological dentistry and oral surgery, cancer treatment, chelation, energy medicine, functional medicine, mycology, nutrition, parasitology, etc. Join them to learn and share experiences in treating a range of chronic health problems: allergies, autoimmune problems, cancer, chronic fatigue syndrome, dental and oral infections, fibromyalgia, fungal infections, gut problems, heavy metals, Lyme and co-infections, neurological problems, parasites, toxins, and more.

In addition to highlighting Fungal, Parasites and the Dental Conundrum, these leading experts in their fields will tie together ways for curing the incurables by measuring the immeasurable, based on Energy Medicine. Cells and organs communicate thru bio-photons and subtle frequency specific micro-currents. We are living in a matrix of a Quantum Universe.

What is your medical conundrum? Visit [www.iamconf.com](http://www.iamconf.com) or [www.preventionandhealing.com](http://www.preventionandhealing.com) for additional information on speakers, and help spread the message of this opportunity. The Tenth International Medical Conference is open to all health professionals. While the general public is welcome to register for this conference, please be aware that the presentations will be scientific and clinical discussions for healthcare providers. Let your doctors, dentists and health professionals know about this important conference. It may save your life, or that of a loved one.

Dr. Simon Yu, M.D. is a Board Certified Internist. He practices Internal Medicine with an emphasis on Alternative Medicine to use the best each has to offer. For more articles and information about alternative medicine as well as patient success stories, and Dr. Yu's revolutionary health book [\*Accidental Cure: Extraordinary Medicine for Extraordinary Patients\*](#), visit his web site at [www.preventionandhealing.com](http://www.preventionandhealing.com) or call Prevention and Healing, Inc., 314-432-7802. You can also attend a free monthly presentation and discussion by Dr. Yu on Alternative Medicine at his office on the second Tuesday each month at 6:30 pm. Call to verify the date. Seating is limited, arrive early.
