

Renzo's Mirrors & Light Kinesiology Enhance AMA: IAOMT London, UK Conference on Missing Links

By Simon Yu, MD

I met [Renzo Celani](#), a well-known healer from Europe, at Medicine Week in Baden-Baden last November after my lecture, "Parasite Medications Targeting Cancer Cells." I was told he can heal many sick people nobody else can, using his intuitive healing gifts and his Biophoton Realignment Mirrors.

He started explaining the Compton-scattering effect of photons, discovered by Arthur Holly Compton, when using his highly polished gold, silver and aluminum mirrors. The [Compton effect](#) is the scattering of a photon by a charged particle, usually an electron, resulting in a decrease in energy of the photon. Part of the energy of the photon is transferred to the recoiling electron.

The Compton effect is important because it demonstrates that light cannot be explained purely as a wave phenomenon. The interaction between electrons and high-energy photons results in electrons being given part of the energy, which allows them to change their direction. I had to go back to my physics textbook to get a better understanding of the Compton effect, for which he won the Nobel Prize in 1927.

Renzo proceeded to talk about Exclusion Zone (EZ) water discovered by Professor Gerald Pollack, the author of, [The Fourth Phase of Water](#). I heard Professor Pollack's lecture, "The Secret Life of Water," and wrote an article, "[Double Helix Stable Cluster Water](#)," about the 2013 Second International Water Conference at Caltech. Pollack explained EZ as a non-polar fourth phase of water, and how water in living biological systems is regulated by EZ phenomenon.

Renzo thinks the Exclusion Zone is expanded under his special filtered optic mirrors, filtering out the interference fields and giving back coherent radiating photons with signals for the accelerated healing. He has no formal medical or science or physics education and yet, he can converse on advanced science and healing phenomenon with the most experienced medical specialists and physics professors.

Renzo was the first one out of thousands of healers that was able to demonstrate the release of biophotons from his palms, as measured by Professor Fritz-Albert Popp and his photon multiplier. The healthier the organism, the less light is emitted as biophotons, but it is more ordered, harmonic and coherent. Sick cells and organs emit more measurable light, but it is not as coherent.

Based on Dr. Helmut Retzek of Austria's recommendation, I attended four days of [Light Kinesiology Training](#) in London in February conducted by Renzo Celani, his partner Nicole Pechmann, ND of Germany, and a London-based dentist, Dr. Shabir Pandor, who is the president of the UK chapter of the International Academy of Oral Medicine and Toxicology (IAOMT). The three of them founded Light Kinesiology to test, work with, and treat people needing help. They use eight different mirrors made of gold, silver and aluminum. Each gold, silver and aluminum mirror reflects a different spectrum of light frequency, and has specific healing properties.

I have been using a combination of these mirrors since then, adding them to my Acupuncture Meridian Assessment (AMA) evaluation. I have been able to detect hidden problems as if I were telescoping into the vast Universe or nano-micro-scoping into the quantum world. It helps me to detect cloaked disturbed meridians when all else has failed, like finding a needle in a haystack. Renzo's Biophoton Realignment Mirror technique (Light Kinesiology) is based on the Autonomic Resonance Testing (ART) developed by Dietrich Klinghardt, MD, PhD and Renzo's Mirrors.

I was able to demonstrate this phenomenon during my lecture and hands-on training a few weeks later at St. George's Klinik near Munich, Germany, and again at the International Holistic Medical Conference (IGMEDT 2019) in Vienna, Austria in March. Using Renzo's Biophoton Realignment Mirrors and

Acupuncture Meridian Assessment (AMA), I can combine and merge the 5,000-year-old ancient wisdom of meridian systems with the subtle energy fields of biophotons - the Compton effect.

I had the opportunity to evaluate nearly 70 people from Austria, Germany, Hungary, the Netherlands, Romania and Switzerland during my lectures and training. Most of them were physicians, and some patients. They all had common missing links: allergy/immunology imbalances and dental/fungal/parasite problems, explaining why they were suffering from Lyme, cancer, chronic diseases, etc. If you are interested in Renzo's mirrors and training, see www.lightkinesiology.com and www.biophoton-realignment-mirror.com.

The dangers of amalgams and root canals have been known for well over 70 years; and still, there is a great deal of resistance from the American Dental Association (ADA). They are undermining the efforts of biological/holistic dentists and their organizations: [IAOMT](#) (International Academy of Oral Medicine and Toxicology), [IABDM](#) (International academy of Biological Dentistry and Medicine), and the [Holistic Dental Association](#).

Allergy/immunology and dental/fungal/parasite-related medical problems are among the most crucial missing links in determining health and disease. I was invited to give a talk at the [5th Annual IAOMT UK Scientific Conference](#), *The Missing Link in Functional Medicine*, in London on June 22-23, 2019. I will present "the parasite link" and will cover the interconnections of dental-related medical problems and how parasitic organisms, fungi and microbes hide in stealth mode in dental/oral/jaw spaces. These problems are detectable using Acupuncture Meridian Assessment (AMA) before becoming visible on cone beam or x-ray, enabling them to be treated earlier. I will also present case studies.

The conference will cover key topics in Functional Medicine, Holistic Dentistry, Lifestyle Modification, Genetic Testing, Structural Disharmony, Testing for Materials and Toxins, Nutritional Detoxification, Parasite and Fungal Treatments, etc. We can support and learn from IAOMT and IABDM in the United States, and also at their international chapters in Europe. Please spread the word about these upcoming Dental-Medical conferences:

- [IAOMT UK conference](#) in London, *The Missing Link in Functional Medicine*, June 22-23, 2019.
- [IAOMT conference](#) in Boston September 12-14, 2019, more to come on the program soon.

Let's get together in London June 22-23rd, 2019 for Fish & Chips and Ale, and root out the ignorance on root canals and much more. And again in Boston for Beans & Cod and Beer, September 12-14.th

Dr. Simon Yu, M.D. is a Board Certified Internist. He practices Internal Medicine with an emphasis on Integrative Medicine to use the best each has to offer. For more articles and information about integrative medicine, patient success stories, and Dr. Yu's health book, [Accidental Cure: Extraordinary Medicine for Extraordinary Patients](#), visit his website at www.preventionandhealing.com or call Prevention and Healing, Inc., 314-432-7802. You can also attend a free monthly presentation and discussion by Dr. Yu on Integrative Medicine at his office on the second Tuesday each month at 6:30 pm. Call to verify the date. Seating is limited, arrive early.
