

“Good Friday” Guidelines

Since I do not accept insurance, I see patients on a reduced fee basis (whatever you can afford) one Friday per month. Lab tests, Rx, supplements and other direct expenses are regularly priced.

This “open clinic” is on the first Friday of the month (call to confirm date), and we do not take appointments. This is for local patients as there is no guarantee that we can see everyone. Doors open 7:30-8:00 am, first come first serve. Please and try to attend the Free Monthly Seminar.

Guidelines are as follows:

1. Dr. Yu will see patients for ten hours only on Good Fridays, 8:30 a.m-6:30 p.m. We open our doors between 7:30 and 8:00 a.m. to begin scheduling patients.
2. Patients who receive a slot on the schedule will usually be seen in the order they arrived, but Dr. Yu or staff may modify this in order to make the best use of time.
3. Patients need to be here when the doors open in the morning by 8:00 am in order to be seen that day. Please do not sign up for another person unless for a small child, a person with a fragile condition, or a person with special needs.
4. No more than two family members of any one family can be seen on a Good Friday. If space remains on the schedule, it is possible that additional members may be seen, but this will be at Dr. Yu’s discretion.
5. Dr. Yu will most likely recommend a hair mineral analysis test and an IgG food sensitivity blood test, and may recommend a variety of supplements and/or prescription medications. While payment for Dr. Yu’s office time is on a donation basis on Good Fridays, any costs for lab tests or supplements that you choose to take must be paid at the end of your visit.
6. We can in no way guarantee that any patient will be seen – we have a limited amount of time and space on our schedule. As there is no guarantee of being seen or a scheduled appointment time, we recommend it for local patients only.
